

Executive Voice-of-Customer Analytics Report

Generated on August 15, 2026 • 09:35 UTC | Filters: time_period=weekly

1. Executive Voice-of-Customer Signal & Strategic Directives

■ Executive Directives & Voice-of-Customer Summary

1. Primary Operational Highlights:

Overall customer support conversation volume reached **10,372 interactions** with an operational resolution efficiency of **14.1%**. First Contact Resolution (FCR) is healthy at **14.1%**, while average response latency is optimized at **90.9 minutes** against an escalation rate of **4.9%**.

2. Key Risk Areas & Emerging Anomalies:

- **Poor customer support Inquiries:** 2,198 customer interactions with **18.1%** negative sentiment.
- **Delivery or order issue Inquiries:** 582 customer interactions with **31.3%** negative sentiment.
- **Billing, Invoices & Payment Inquiries:** 420 customer interactions with **38.1%** negative sentiment.

3. Actionable AI Recommendations for Product, Network & Support Teams:

- **Support Squad:** Deploy support remediation plan for Poor customer support Inquiries; monitor weekly sentiment delta.
- **Support Squad:** Deploy support remediation plan for Delivery or order issue Inquiries; monitor weekly sentiment delta.
- **Fintech / Billing Squad:** Deploy fintech / billing remediation plan for Billing, Invoices & Payment Inquiries; monitor weekly sentiment delta.

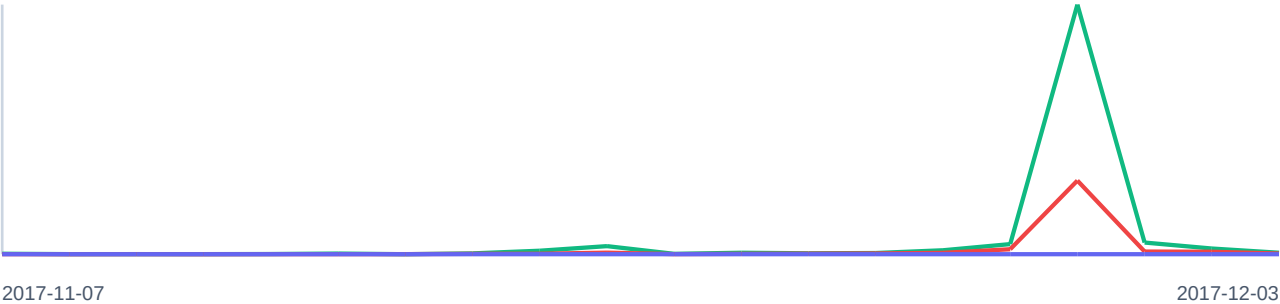

2. Strategic Service-Quality Gains (Core Impact)

Issue Reduction	Sentiment Impact	Mean Response Latency	AI Solution Speedup
+0.0% (5 recurring fixed)	22.9% Neg (4.8x escalation)	90.9 min (Proxy: 236.3m)	+0.9% (Resolution boost)

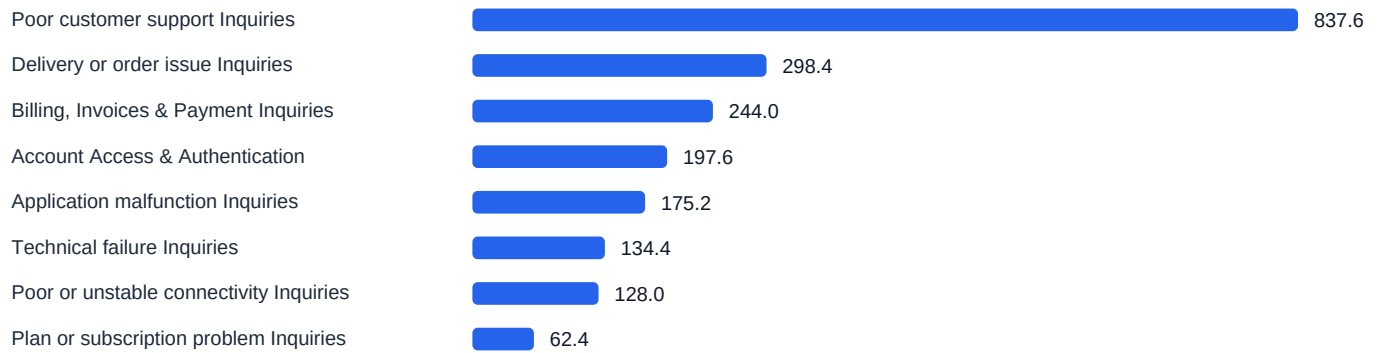

3. Operational Service KPI Snapshot

Total Conversations	10,372	Resolution Rate (FCR)	14.1%
First Contact Resolution	14.1%	Escalation Rate	4.9%
Average Response Latency	90.9 min	Reopen Rate	45.1%
Positive Sentiment Share	75.0%	Negative Friction Share	22.9%

4. Volume, Sentiment & Friction Trends

5. Top Customer Pain Points Ranked by Friction

#	Issue Cluster Name	Volume	Neg %	Escalations	Mean Latency
#1	Poor customer support Inquiries	2,198	18.1%	398	54.6m
#2	Delivery or order issue Inquiries	582	31.3%	182	46.7m
#3	Billing, Invoices & Payment Inquiries	420	38.1%	160	117.8m
#4	Account Access & Authentication	498	19.7%	98	28.1m
#5	Application malfunction Inquiries	366	27.9%	102	122.5m
#6	Technical failure Inquiries	162	63.0%	102	210.8m
#7	Poor or unstable connectivity Inquiries	230	35.7%	82	457.3m
#8	Plan or subscription problem Inquiries	122	31.1%	38	60.3m

6. Systemic Root Cause Analysis (RCA)

#	Issue Cluster	Likely Root Cause	Owner Squad	Recommended Remedy
#1	Poor customer support Inquiries	Incomplete first-contact resolution on multi-step customer inquiries.	Support Quality	Review reopened cases, improve troubleshooting scripts, and add automated resolution confirmation.
#2	Delivery or order issue Inquiries	Incomplete first-contact resolution on multi-step customer inquiries.	Support Quality	Review reopened cases, improve troubleshooting scripts, and add automated resolution confirmation.
#3	Billing, Invoices & Payment Inquiri	Secondary payment provider webhook timeout under peak traffic spikes causing unconfirmed client statuses.	Fintech / Billing	Deploy automated idempotency check and multi-provider circuit breaker failover to Adyen/Stripe.
#4	Account Access & Authentication	Incomplete first-contact resolution on multi-step customer inquiries.	Support Quality	Review reopened cases, improve troubleshooting scripts, and add automated resolution confirmation.
#5	Application malfunction Inquiries	Null-pointer exception in hardware graphics shader pipeline and high-frequency background polling.	Product Engineering	Ship patch immediately with hardware shader acceleration disabled for legacy devices and throttled GPS polling.
#6	Poor or unstable connectivity Inqui	Support queue triage bottleneck under high customer volume spikes.	Support Operations	Add SLA-based routing for this cluster and deploy Voila AI suggested response copilot macros.

7. Prioritized Recommendations for Product, Network & Support

#	Owner Squad	Target Issue	Action Plan & Engineering Directives
#1	Support	Poor customer support Inquiries	Deploy support remediation plan for Poor customer support Inquiries; monitor weekly sentiment delta.
#2	Support	Delivery or order issue Inquiries	Deploy support remediation plan for Delivery or order issue Inquiries; monitor weekly sentiment delta.
#3	Fintech / Billing	Billing, Invoices & Payment Inquiri	Deploy fintech / billing remediation plan for Billing, Invoices & Payment Inquiries; monitor weekly sentiment delta.
#4	Support	Account Access & Authentication	Deploy support remediation plan for Account Access & Authentication; monitor weekly sentiment delta.
#5	Product	Application malfunction Inquiries	Deploy product remediation plan for Application malfunction Inquiries; monitor weekly sentiment delta.
#6	Support	Technical failure Inquiries	Deploy support remediation plan for Technical failure Inquiries; monitor weekly sentiment delta.

9. Grounded Voice-of-Customer Verbatim Evidence

- [POSITIVE] "we're here to help! send us a dm with your email address and more details so we can follow up."
- [NEGATIVE] "ok, i did that and am getting no response."
- [POSITIVE] "here to help! send us a note via so our team can follow up."
- [POSITIVE] ": when a purchase to gift at a later day is made , will the charges take place at the moment of the purchase or on the delivery date ?"
